form in accordance with the principles of dematerialization.

The capital of the Company may be increased or decreased as necessary, pursuant to the provisions of the Turkish Commercial Code and the Capital Markets Legislation.

Within the years 2017 through 2021 (until the end of 2021), the Board of Directors is authorized to pass resolutions to increase the issued capital as it may deem necessary from time to time by issuing new shares up to the registered capital upper limit, restrict the rights of the existing shareholders to subscribe for new shares in capital increases, and to issue shares with premium or with values lower than their nominal value. The authority to restrict the right to subscribe for new shares may not be exercised in a manner to give rise to inequality among the shareholders.

Where any new shares are to be issued, unless the Board of Directors has resolved otherwise, the ratio of Class A registered shares in the issued capital shall be maintained the same.

In case of a transfer of any Class A shares to any person, the transferred Class A shares are transformed into Class B shares at the time the transfer is effected.

In order for the Class A shares to be traded at the stock exchange, first they must have been transformed into ClassB Shares. Upon the application by the holder of the Class A shares to the Central Registraton Agency (*Merkezi Kayıt Kuruluşu Anonim Şirketi*) for transforming them into shares eligible for being traded at the stock exchange, the shares that are covered by such notification are automatically transformed into Class B shares.

During capital increases, the bonus shares are distributed to the shares existing as at the date of the capital increase in question.
